Allowable Subject Matter

1. Claims 1-5 and 7-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: In the response filed 7/15/2005, Applicant canceled claim 6 and incorporated its limitations into the independent claim 1, which would cause the 102 rejection of the instant claim1 to be amended to a 103 rejection. In addition to the amendment, the Applicant filed a declaration demonstrating that unexpected results in printing durability and small dot reproduction are achieved by the invention of the reference. In light of the amendment and declaration evidence, thus the rejection of the instant claims 1-5, 7-9, and 20 are now allowable over the prior art of record. With respect to the instant claims 10-19 and 21, applicant has argued that there is no teaching by the reference to prepare a material comprising a compound wherein the compound contains two or more oxadiazole groups. Therefore, after reconsideration of the references of record, the rejection of claims 10-19 and 21 has been dropped and the claims are now allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
